

MUNICIPAL AIRPORT, MEMPHIS, TENN.—60

The \$65,000 administration building at the Memphis Airport is one of the country's most up-to-date. There is a control tower through which all traffic of the airport is regulated by radio, and stop and go beams atop the building. There are runways in eight compass directions. Three air transport lines serve Memphis.

POST CARD

Having a very
nice time - enjoyed
this part of the
country very much.
Regards
Nat & Joe
